## Snazzy Baby Review

Snazzy Baby is committed to developing and sourcing products designed to safely protect precious babies. We love products which simplify everyday life and allow parents to enjoy every minute of their lives with their baby, doing

the things they want to do while ensuring their baby is protected when using our products.

Your home for the best in innovative baby protection products, Snazzy Baby was created by Australian mom Cyndy Mundy who needed to protect her tot's tender knees after another day of crawling on the carpet. The award-winning company has impressed online and brick and mortar retailers with snug, soft, 4 layer cushioned oval knee pads made of neoprene and secured with velcro straps and ensuring a comfortable fit. All products submitted by Snazzy Baby to iParenting Media have won their prestigious iParenting Media Award and praise.

The Mom's Deluxe 3-in-1 Plus Combo Carrier actually grows with the baby, so parents or caregivers can use the same carrier from 4 months old until 3 years. The carrier even works as a temporary child restraint in chairs and shopping carts.

I had the opportunity to review the Snazzy baby 3-in-1 Carrier from Snazzy baby! It is a 3-in-1 carrier that is a must-have item for any parent. We were able to try it out over the last week when we went shopping, out to dinner, and even over at grandma's house. The first feature we used was the high chair restraint. It is very simple to use and held our little 14 month old on his chair while we enjoyed our dinner out. I love that the size is small so I can throw it in the diaper bag and always have it with me if I need it. After dinner we headed out to the grocery store and we were able to secure our little one in the cart. I love that it gives mom the assurance that baby is safely secured and can't fall out of the cart. Not to mention how much he loved sitting in the cart feeling like a big boy in the snazzy baby. I loved that I

don't have to remove him from the carrier to put him in the cart etc. I love this feature. Unfortunately we weren't able to try the breastfeeding option as he is long past those days. But it will be great for our next baby. But I did see how nicely it could be used throughout all of our activities. I love the fact that I will be able to use it for him clear up until he is 3 years old. No need to buy different carriers for his age. I have it all in one now! Dad even tried it out at Grandma's house carrying him around the house. He giggled and thought it was a ride. It is very sturdy and seems to be very heavily enforced so you know it will last a long time. Thanks Snazzy baby for the great carrier. We love it!

Another feature of the Combo Carrier is that it can be used as a restraint system on chairs in your home or when you travel. It can also be used in shopping carts as a child restraint. A mom or dad on-the-go can take baby from a position on the body, to sitting in a shopping cart, and then back to a baby wearing position, all with a few simple adjustments that are easily performed by one person. Easy color-coded clips make adjustments a breeze.

We highly recommend the Snazzy baby carrier. It is such a great item to have on hand because of it's multi-purpose uses and it's ability to grow with your baby.
