New Carrier That Grows With Baby

The new Mom's Deluxe 3 in 1 Plus Combo Carrier is a multi-purpose carrier that actually grows with baby. The Snazzy Baby's Mom's Deluxe 3 in 1 Plus Combo Carrier excels in versatility. Starting when baby is four months, the Combo Carrier can be positioned so that baby faces inward for breastfeeding and bonding, or outward to view the world when not feeding. As babies grow, so does the Combo Carrier. Older babies and toddlers (up to 3 years) can be positioned to sit on either hip facing out or facing in for naptime. SnazzyBaby.us
