WTS Rating:

(5 out of 5 stars)

SUMMARY

Snazzy Baby Mom's Deluxe 3 in 1 Plus Combo Carrier gives baby a choice of viewing the world outwards or hide snuggly inwards. It can also be used as a temporary high chair restraint system, and can be used in shopping carts for additional safety. There's a convenient pouch on the exterior of the carrier, which is the perfect size for keys, a diaper, rattles and other small items. Available in two colors - Black and Sand.

Each Combo Carrier comes with a free pair of Snazzy Baby Leg Warmers that help keep little legs warm, in or out of the carrier!

INDIVIDUAL CATEGORY RATINGS

EASE OF USE

Absolutely intuitive - and our Moms loved it! Unlike some other carriers that they have used in the past, our Moms were so happy to be able to get themselves into and out of - and get their babies into and out of - this awesome little carrier. And making the switch from carrier to high chair restraint to shopping cart restraint is easy too! Snazzy Baby even includes an instructional DVD in the package to make learning even easier.

DURABILITY

When run through the baby test (spit up, snot, drool) - our Moms found no cause for concern. The Carrier wiped clean with a wet paper towel for spot cleaning - and came through the washing machine just fine for some of the bigger stains.

VISUAL APPEAL

The two colors available, black and sand, satisfied even our pickiest Moms. Some did say they like brighter, more fun designs, but others countered with if they ever wanted to get this carrier on their husband black and sand was perfect!

FUNCTIONALITY

Unless this carrier can change a baby's diaper on it's own - our parents couldn't find any functionality missing! Perfect as a carrier (facing out and in), a high chair restraint, and a shopping car restraint. Now that's a lot of function!

COST EFFICIENCY

In a blind survey, our parents priced this carrier between \$60 and \$70. With an actual retail price of just under \$80, our parents felt it was inching towards the expensive side, but certainly well worth it. Remember, as they did, this product isn't just a carrier, it has added use that helps pump up the value.

ORIGINALITY

Of course our Moms and Dads had seen baby carriers before, but no one had seen any with this much versatility. Add in the high chair restraint and the shopping cart restraint and we've got one unique product here!

OVERALL RATING

Overall our Moms and Dads really enjoyed reviewing Snazzy Baby's Carrier. Sure, the price is a few dollars more than they would have liked, but it seems that you get what you pay for - especially with baby products. And this carrier won't disappoint. It is easy to use, made well for long lasting performance and jam packed with function!
